I want to talk about the hygiene of the dining hall. I found an insect on my lettuce a few days ago and I showed it to the manager. Yesterday again, I found sand on the lettuce and again today, I saw two insects on the serving plate of cheese. I feel that something needs to be done about the dining hall	10/1/2017			
I am highly allergic to shrimp and even the smell can trigger a reaction. Is there any way that I can notified when it will be served? And can I have an alternative meal because I cannot eat what is being served?	9/25/2017			
The cultural and ethnic insensitivity of professors and staff and microaggressions from professors/staff	9/19/2017	Academic Affairs Committee

No parking behind Hightower	9/6/17	Campus Services		
Trees in the apartment parking lot and Wortham parking lot are filled with yellow jackets	9/6/17	Campus Services		
Call the campus police phone (478-960-7969) and not the walky	8/23/17	Tabled until further notice		
I think that students should be allowed to have anyone they want as their hooder.	3/31/17	Academic Affairs Committee		
Campus Police Hello, the dark skinned black police officer who usually works day shifts. When he is supposed to be patrolling the library, he is often on his phone and doesn't even walk the whole library. He just walks right through the first floor. Also, who is going to be the new chief?	3/23/17	Campus Services		
Handicap accessibility for library	3/23/17	Campus Services

1. I think that because OSP is the a student-focused building we should have art on the main floor as it is representative of the 23 countries that Wesleyan is so proud of. http://www.wesleyancollege.edu/studentlife/Index.cfm The art on the main floor, I propose, should reflect the diversity in our student population. Currently the only pictures showing are of white colonials women and old white men who do not represent what Wesleyan is now. It is also not inviting aesthetically. 2. I think that the library should also be used to feature art that is made BY students. We could have student art circulated through the library. I think that because students use the library more than any other people on this campus it should also be reflective of our work and our progress as students. It would be an awesome way for students who don't ever go to Murphy or the galleries in Porter to get a chance to see the work student create and it would be great for the students who have yet to go out into the world and establish themselves as artists. 3. I fear that because the cafeteria uses big bowls for jelly, peanut butter, butter, sometimes even sauces it may lead to cross contamination. For the past three days when I have asked for butter in the morning, they bring out butter that is covered in bread crumbs, jelly, and even hair from the previous days. It is not a good look for the Anderson Dining Hall and it does not lead to a good eating experience especially if students health is put at risk.	1/26/17			
when first talked to about dining options I was told there would be a wide variety of options that fit my dietary needs. I can not eat dairy, eggs, and meat, and I struggle to find something to eat everyday that is not the salad bar. It would be great if more vegan options were available so not only myself, but other vegans on campus can eat.	9/1/16	Campus Services		
Very hard to enjoy being outside as there are ants on every single bench. If you try to use the benches with or without the umbrellas you will see that you can't sit more then 5 minutes without getiing bitten by an ant.	7/3/16	Campus Services and Student Life		
I'm bothered by some of the school's language. Like when forms use the word 'disabilities,' but people are not disabled they are just differently abled. And how forms use the vocabulary 'dietary restrictions,' but when people choose to eat differently (like vegetarians) then it is not a restriction it's a choice.	5/3/16	tabled		
We were wondering if maybe each apartment could get a small fire extinguisher to go in the cabinets?	4/25/16	tabled

Washers and Dryers in Wortham break down often	3/1/16			
I was wondering if we could get a plastic/aluminum recycling bin in the Academic Center? There's already a trash can and a paper recycling bin, but I can't tell you how many cans and bottles are thrown away that could be recycled. Thanks for all y'all do!	2/21/16			
"How do we put in a physical request order for things that are not in our room, because one of the doors that lead outside to the fountain from the hallway by the campus store going to the mailboxes will not stay closed and I tried to lock so that the door won't open at all but either I was not doing it right or I'm not strong enough. I'm not sure if that is a big concern, but thought that I should let someone in SGA know about it."	1/31/16			
Previously, the Willet Library has offered students emotional support and encouragement through the form of our late furry friend, Libris. If another cat/kitten could be brought to the library, it would be greatly appreciated. It would also be an added incentive for more students to come use the library as a resource. Please consider this kind request.	1/14/16	indefinetly tabled		
Residents in Hightower 2nd have continuously complained about the lack of heating in the dorm rooms. So much so that they can't sleep at night that as the temperature is way below even room temperature.	1/14/16	tabled		
Wortham dorms are really cold. It's not just one room but the entire building.	1/14/16	tabled		
The gate closing and opening times are irregular and it is really annoying. Also, is there a way we could talk to the campus police and convince them to keep the gate near the apartment on Tucker road open longer? Maybe until 10pm? Thank y'all for your hard work!!	1/14/16	Campus Services		
Can we please get a water fountain/bottle filler in the Candler Building? Water fountain on Persons 3rd is broken. Is the Munroe water fountains safe to drink from?	1/13/16	Campus Servies
